PLATFORM FEATURES & COMMERCIAL PACKAGING GUIDE

Complete capability inventory for customer accounts, tier packaging & pricing strategy

EXECUTIVE SUMMARY & BUSINESS MODEL

B2B LINK operates as a zero-commission (0% platform transaction fee) European wholesale trading exchange. Unlike retail marketplaces that levy 3% to 8% per transaction, all wholesale lots are settled directly between buyer and seller corporate accounts via Wise Business or SEPA wire under proforma invoices.

Monetization is driven exclusively by Monthly Membership Subscriptions and Lead Unlock Credits.

1. CORE CAPABILITIES (ANY REGISTERED USER)

Available to both Commercial Buyers and Verified European Suppliers upon account creation:

A. Live Trading Board & Marketplace Search

Real-time access to active Want-To-Buy requests and wholesale inventory stock lots across Europe. Universal multi-parameter filter search by Brand, Model / Item Code, EAN/UPC barcode, and niche category with zero horizontal scroll clutter.

B. Privacy-Protected Lead Unlocking System

Public viewers and basic accounts see product specs, quantities, target prices, and warehouse locations. Direct corporate names, emails, and direct phone lines are locked. Members use monthly Unlock Credits to reveal verified credentials permanently.

C. Direct Multi-Channel Outreach

Unlocked counterparties can be contacted immediately via "Email Directly" (pre-populated order terms), in-app Live Chat negotiation desk, or formal inquiry / quotation submission.

2. COMMERCIAL BUYER FEATURES (SOURCING DESK)

Empowering retail purchasing managers, wholesalers, and e-commerce stock buyers:

[+] Post Sourcing Requests (WTB): Publish Want-To-Buy requests with target unit prices, required volumes, EAN barcodes, and delivery destination hubs (DE, NL, FR, UK, etc.).

[+] Fast Image-Free Posting: No photo uploads required. Commercial buyers only need to input model codes and barcodes, cutting posting time down to under 60 seconds.

[+] Automated Seller Broadcast: The platform instantly alerts all verified European suppliers holding relevant product categories or specific barcodes via email.

[+] Incoming Quotation Management: Centralized hub (/dashboard/requests) to review seller quotes side-by-side: offered unit price, quantity available, lead time, and seller compliance notes.

3. VERIFIED SELLER FEATURES (WHOLESALE DESK)

Tools for European stockists, authorized distributors, and volume liquidators:

[*] 24-Hour Compliance Vetting: Sellers receive a verified trust badge upon desk review of their EU VAT registration and commercial documentation, building instant buyer credibility.

[*] 2-Step Image-Free Stock Listing: Post parcels and pallet lots without photography overhead: Step 1 (Brand, Item Code, EAN, Category, Condition), Step 2 (Price, Available Units, MOQ, Location).

[*] Bulk CSV Inventory Upload: Upload large spreadsheets containing hundreds of SKUs simultaneously via the CsvImportModal, instantly populating the Live Trading Board.

[*] Hot Lot Promotion Highlighting: Apply a "Hot" badge to time-sensitive stock clearance or high-demand parcels to position them prominently on the exchange.

[*] Proactive Bidding on Buyer Requests: Browse live buyer requests and dispatch competitive price quotes directly to commercial buyers looking to buy today.

[*] Sent Quotes Tracker: Real-time sales dashboard (/dashboard/quotes) monitoring quote delivery status (Sent, Unlocked, Accepted, Negotiating).

4. RECOMMENDED MEMBERSHIP TIERS & PACKAGING MATRIX

A battle-tested 3-tier structure designed to maximize free buyer adoption while monetizing active sellers:

FEATURE / LEVER	BRONZE (FREE)	SILVER (PRO TRADER)	GOLD (ENTERPRISE)

Seller Trust Badging	Basic Registered Member	Verified Supplier	**Gold Vetted Enterprise**
Platform Commission Fee	0% Commission	0% Commission	**0% Commission**

5. STRATEGIC RECOMMENDATIONS FOR YOUR CLIENT

1. KEEP BUYERS 100% FREE

Never charge retail buyers or procurement departments to submit Want-To-Buy requests. High buyer liquidity and open sourcing volume creates the marketplace gravity that compels verified sellers to happily pay monthly subscription fees.

2. MONETIZE "UNLOCK CREDITS" AND "LISTING CAPACITY"

Traders with large inventories readily subscribe to €149 or €299 tiers because 15 to 25 extra listings and unlimited buyer contacts pay for themselves on their very first closed wholesale order.

3. CHAMPION THE "0% TRANSACTION COMMISSION" ADVANTAGE

Marketplaces like Amazon Business or traditional broker platforms charge 3% to 8% per transaction. On a €50,000 electronics order, that is a €2,500 fee. B2B LINK charges €0 on trades, making a €249/mo membership an irresistible proposition.
